Co-Sponsor's signature		

**INSTRUCTIONS:** This form and a proposal must be submitted no later than the **Tuesday before the end of the "ADD" period** to the BBB office. The proposal must explain the research that the student intends to do, including a short description of the goal, problem and methods. The proposal must also include a short bibliography that the research advisor intends the student to cover during the period of study.

Students participating in more than one semester of research will be required to present a poster at the Research Symposium held in April of each year. Juniors pursuing an honors thesis will be required to present a poster at the symposium and seniors completing an honors thesis will be required to present a 10-minute talk at the symposium.
